Product & UX/UI Designer | User Research, UI Design & Prototyping

United Kingdom • +44 7799 752283 • vyasdev.6303@gmail.com

LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Product and UX/UI Designer with **2 years' experience**, an MSc in Human-Centred Interactive Technologies (**Distinction, 74%**) and a Computer Science background. Skilled in user research, journeys and flows, wireframing, Figma prototyping, usability testing, WCAG accessibility, design systems and developer handover. Developed an exercise-app concept tested with **8 users** and conducted a **42-participant HCI study**, translating findings into clear, accessible UI decisions.

RELEVANT SKILLS

Product & UX: User-Centred Design | Product Discovery | User Research | User Journeys | User Flows | Information Architecture | Wireframing | Figma Prototyping | Interaction Design | UI Design | Usability Testing | Accessibility (WCAG) | Design Systems | Responsive Design

Tools: Figma | Adobe XD | Framer | Adobe Photoshop | Adobe Illustrator | Adobe InDesign

Research & Insight: Quantitative Research | Questionnaires | Think-Aloud Testing | Research Synthesis | SPSS | Jamovi | Python

Visual Design: Typography | Colour | Layout | Visual Hierarchy | Brand Guidelines | Digital Assets

Technical & Collaboration: HTML5 | CSS3 | JavaScript | React | Next.js | GitHub | Developer Handover | Design Documentation | Stakeholder Communication | Design Critique | Mentoring

SELECTED PRODUCT DESIGN & UX PROJECTS

Move - University Exercise App | UX Researcher & Product Designer

Human-Centred Design Project | University of York | 2026

- Led the end-to-end user-centred design of an iOS exercise app, from product discovery and research to Figma prototyping, usability testing and iteration.
- Synthesised **17 questionnaire responses** to identify barriers, develop personas, prioritise features and evaluate early concepts before a four-screen prototype.
- Conducted moderated think-aloud usability testing with **8 users**, identifying confusion around the original "Quiet Mode" interaction.
- Redesigned the interaction as a clearer Crowd Filter with Social and Solo states, translating usability findings into design decisions.

Distraction Resistance & Complex User Interfaces | UX Researcher

MSc Dissertation / Capstone | University of York | 2026

- Designed and conducted an ethics-approved quantitative user research study with **42 participants**, investigating distraction resistance and performance on complex interfaces.
- Developed the research methodology and purpose-built browser task, refining the study through four in-person pilot rounds before recruitment.
- Analysed behavioural data using Python, SPSS and Jamovi, cross-checking statistical findings across tools.
- Translated findings into design implications for interface complexity, showing that completion time revealed differences that accuracy alone did not.

WORK EXPERIENCE

Student Content Creator | University of York
Oct 2025 - Aug 2026

- Restructured university content around user needs, translating stakeholder briefs into clear information architecture and content hierarchies.
- Applied accessibility and readability principles, iterating content with university stakeholders against requirements and feedback.

Graphic & UI Designer | Panchal Softwares
Aug 2024 - Dec 2024

- Designed **30+ digital and UI assets** for product launches across multiple platforms, maintaining a consistent visual language.
- Created reusable typography, colour and layout guidelines to support consistent UI delivery across design and development.
- Prepared design assets, visual specifications and developer handover documentation, clarifying UI requirements during implementation.

Design Lead & Mentor | Google Developer Student Clubs
Jan 2023 - Jan 2024

- Led visual design for **8 technology events**, supporting programmes that reached a combined audience of **500+ attendees**.
- Mentored **5 team members** through UI/UX workshops and design reviews, establishing reusable visual patterns across projects.

UI/UX & Visual Consultant | Non-profit Organisations
Jun 2020 - Apr 2023

- Completed **12 design projects**, with **6 clients** returning for additional work.
- Created **20+ visual identities** and brand assets while managing briefs, client requirements, feedback and final delivery.
- Mapped user journeys, created wireframes and designed mobile-first web interfaces for selected client projects.

EDUCATION

MSc Human-Centred Interactive Technologies
University of York | Sep 2025 - Sep 2026
Distinction (74%)

BE Computer Science & Engineering
Gujarat Technological University | Jun 2020 - Jun 2024
First Class with Distinction | CGPA 8.61

ACHIEVEMENTS & AWARDS

Departmental Prize - Highest Performing Student
University of York | 2025/26 MSc cohort | View LinkedIn announcement
