PROFESSIONAL PROFILE

Turns research, craft and code into products people actually use. Product designer with four years' commercial experience across UX research, UI design and brand identity, currently completing an MSc in Human-Centred Interactive Technologies at the University of York. Comfortable moving between quantitative research, high-fidelity prototyping in Figma and Adobe XD, and using AI tools like Claude and Gemini to speed up repetitive work without handing over the judgement calls. Focused on accessible design that holds up under real user testing, not just looks right.
