PROFESSIONAL SUMMARY

Product, UI/UX and graphic designer with a Computer Science background. Completed MSc studies at the University of York with a **74.1% provisional credit-weighted average**; final award pending. Developed a Figma exercise-app prototype tested with **8 users** and conducted a **42-participant HCI study**. Combines visual design with research and accessibility principles to create clear interfaces and brand assets.

RELEVANT SKILLS

Product and UX: User Research | User Journeys | Information Architecture | Wireframing | Prototyping | Usability Testing | Interaction Design | Accessibility (WCAG)

Software and UI: Adobe Creative Cloud (Photoshop, Illustrator, InDesign, After Effects, Premiere Pro) | Figma | Adobe XD | Framer | Design Systems | Component-Based UI | Responsive Design

Graphic Design: Brand Identity | Brand Guidelines | Typography | Colour | Layout | Visual Hierarchy | Digital Assets | Social Media Graphics

Research and Technical: Quantitative Research | Questionnaires | Think-Aloud Testing | SPSS | Jamovi | Python | HTML5 | CSS3 | JavaScript | React | Next.js | GitHub

Collaboration: Stakeholder Communication | Developer Handover | Design Critique | Mentoring

SELECTED PRODUCT AND UX PROJECTS

Distraction Resistance & Complex User Interfaces | UX Researcher

MSc Dissertation / Capstone | University of York | 2026 | **75% (provisional)**

- Designed and conducted an ethics-approved quantitative HCI study with **42 participants** to investigate how distraction resistance relates to performance on complex interfaces.
- Developed the research methodology and a purpose-built browser task, refining the study through **4 in-person pilot rounds** before recruitment.
- Analysed behavioural data in **Python, SPSS and Jamovi**, cross-checking statistical findings across tools.
- Found that completion-time measures captured differences associated with distraction resistance that accuracy alone did not, informing design implications for interface complexity.

Move - University Exercise App | UX Researcher & Designer

Human-Centred Design Project | University of York | 2026

- Took an iOS exercise-app concept through discovery, user research, concept development, **Figma prototyping, usability testing and iteration**.
- Analysed **17 questionnaire responses** to identify barriers, develop personas and prioritise features. Rejected **2 early concepts** before developing a **4-screen prototype**.
- Ran moderated think-aloud testing with **8 users**. Identified confusion around "Quiet Mode" and redesigned it as a clearer **Crowd Filter** with explicit Social and Solo states.

WORK EXPERIENCE

Student Content Creator | University of York

Oct 2025 - Aug 2026

- Restructured university content around reader needs, translating stakeholder briefs into clear information hierarchies.
- Applied accessibility and readability principles, refining content with university stakeholders against requirements and feedback.

Graphic & UI Designer | Panchal Softwares

Aug 2024 - Dec 2024

- Designed **30+ digital and visual assets** for product launches across multiple platforms, maintaining a consistent visual language.
- Created reusable typography, colour and layout guidelines to give design and development teams a shared reference.
- Organised design assets and visual specifications for developer handover, clarifying UI requirements during implementation.

Design Lead & Mentor | Google Developer Club

Jan 2023 - Jan 2024

- Led visual design for **8 technology events**, supporting programmes that reached a combined audience of **500+ attendees**.
- Mentored **5 team members** through UI/UX workshops and design reviews, establishing reusable visual patterns across projects.

UI/UX & Visual Consultant | Non-profit Organisations

Jun 2020 - Apr 2023

- Created **20+ visual identities** and brand assets, managing briefs, client requirements and feedback through final delivery.
- Mapped user journeys and created wireframes and mobile-first web interfaces for selected client projects.
- Completed **12 design projects**, with **6 clients** returning for further work.

EDUCATION

MSc Human-Centred Interactive Technologies

University of York | Sep 2025 - Sep 2026

Studies completed; final award pending. Provisional credit-weighted average: 74.1%.

BE Computer Science & Engineering

Gujarat Technological University | Jun 2020 - Jun 2024

First Class with Distinction | CGPA 8.61
